## YOUR AI BASED MEDICAL VISUAL QUESTION ANSWERING COMPANION

A new way to seek answers related to medical scans

[ASK NOW](#)

### Our Vision

Mediviser revolutionizes medical image interpretation through cutting-edge features of Artificial Intelligence (AI), enhancing diagnostic accuracy, empowering medical education, and simplifying the patient experience. We aim to make disease diagnosis faster, efficient and accurate.

### Introducing Our Model

We've developed an innovative healthcare platform with a straightforward sign-up process, providing you with a comprehensive medical dashboard. Easily upload medical images and get answers to your health queries. Our upcoming integration of Large Language Models (LLMs) ensures in-depth explanations for enhanced accessibility. This inclusive application caters to diverse communities globally, revolutionizing healthcare solutions.

Incorporating Visual Question Answering (VQA) into our platform, we employ Fusion Models that combine information from text encoder BERT and image encoder ViT. This multimodal approach facilitates high-level reasoning, giving accurate responses to user queries. This model optimizes the process of medical image analyzing giving detailed descriptions, ultimately improving the user experience.

## Learn How It works

### Step 1: Sign Up or Log In

Log In to access the chatbot , but if you are new user create an account to avail the benefits.

### Step 2: Asking Questions with Medical Images

In the chat interface, you can ask medical questions related to the uploaded images. Use the "Upload" button to submit the medical images and type your question or use visual prompts you want to inquire about.

### Step 3: Give Your Feedback

After receiving a response, you will have the option to like or dislike the generated answer. This feedback helps improve the model's accuracy over time.

### Step 4: Get Expert Medical Advice

If you require more personalized or expert medical advice, explore the subscription plans.

Navigate to the "Subscription Plans" section on the dashboard, under profile settings. Choose from the available plans that meet your needs.
